SKILLS

- **Languages:** Python, JavaScript, C
- **Technologies:** HTML, CSS
- **Databases/Tools:** MySQL, DBMS
- **Soft Skills:** Problem solving, Team collaboration, Time management, Adaptability, Leadership, Decision-making

PROJECTS

Farmers App

2026

- Developed a project focused on helping farmers make better decisions when selling their crops.
- Designed the idea around comparing available mandi prices so farmers can evaluate different markets before selling their produce.
- Helped farmers identify a suitable mandi offering a better available price and reduce the chances of missing fair market value.

Food Leftover Management System

2025

- Developed a solution to reduce food wastage by connecting surplus food providers, including restaurants, events, and households, with NGOs or people in need.
- Designed a platform to track available leftover food and manage pickup and delivery requests for efficient redistribution.
- Focused on improving coordination between food providers and recipients while reducing avoidable food waste.

Tap a Toe | Hands-Free Reel Scroller

2025

- Designed a hands-free reel-scrolling mechanism for people eating with dirty hands and individuals with absent or injured hands.
- Integrated an Arduino, motor, and toe-operated button to provide a simple foot-controlled scrolling interface.
- Implemented the control flow where a button press sends a signal to the Arduino, which runs the programmed logic and triggers the motor.

CERTIFICATES

- | | |
|--|------|
| • Computer Programming | 2026 |
| • Community Development Project — Pahal | 2026 |
| • Community Development Project — Times Foundation × LPU | 2026 |
| • EduPreneur Pitch Fest | 2026 |
| • COD-A-FESTX 3.0 — National Hackathon | 2026 |
| • COD-A-FEST 3.0 — 18-Hour National Level Hackathon | 2026 |

ACHIEVEMENTS

Extra-Curricular

- Secured 3rd position in the EduPreneur Pitch Fest, a competitive 2-minute EdTech pitching event organized by the Centre for Professional Enhancement at Lovely Professional University.
- Demonstrated concise idea communication, pitching ability, creativity, and confidence while presenting an EdTech-focused concept.

Hackathon Participation

- Participated in 2 hackathons: Hackathon-101 by ARC and COD-A-FEST 3.0, gaining hands-on exposure to collaborative problem-solving and innovation.

- Engaged in technical and innovation-focused hackathon environments, strengthening teamwork, creativity, and practical solution-building skills.

EDUCATION

Lovely Professional University

Phagwara,
Punjab

Bachelor of Technology - Computer Science and Engineering; CGPA: 8.29
